

HOW TO RIDE ?

FIND A BUS STOP

Use a map to locate the bus stop for the route you want to take.

You can scan the QR code to view an online map.

Click on the bus stop icon to see a photo of the bus stop for confirmation.

GET ON THE BUS

Look for buses with green license plates that start with the letter "M."

The bus will not leave until it has enough passengers.

If you want to board from a bus stop along the route, raise your hand to signal the driver.

The bus will stop if the driver notices your signal.

You need to open and close the bus door by yourself.

GET OFF THE BUS

When your stop is near, say "Bus stop!" loudly to alert the driver.

When the bus stops, open the door yourself and exit.

Pay the fare through the front passenger window in cash.

The base fare is 1.75 EC dollars.

You can check the fare table at the bottom left corner of the online map for more details.

Q&A

Q: I RAISED MY HAND AT THE BUS STOP, BUT THE BUS DIDN'T STOP. WHY?

A: If the bus is full or out of service, it may pass by even if the driver notices you.

In such cases, the driver might flash the lights or honk to let you know.

Q: THERE'S NO TIMETABLE. WHEN WILL THE BUS ARRIVE?

A: Buses depart from the first stop when they are full.

The timing of buses depends on the time of day.

For Route 1A, which has frequent service, buses run approximately every 5 minutes.

Q: ARE BUSES AVAILABLE EVERY DAY?

A: Most buses run daily from Monday to Saturday.

However, on Sundays and public holidays, some routes may not operate, or the number of buses may be significantly reduced.

Q: THE BUS SUDDENLY LEFT ITS ROUTE. IS THAT OKAY?

A: When there is heavy traffic, the driver may take a detour at their discretion.

If it's a major bus stop, the bus will always return to the route and pass by, so don't worry.
